In the event we are not able to secure the desired vessel from our suppliers, we will work to find a suitable alternative for your approval.

\*If you would like another vessel that we do not currently offer, there will be a \$10 flat fee added to cover research & testing of desired vessel. We can only accommodate vessels that hold between 2.5 oz and 16 oz of product.

## Fragrance

There are two categories for the fragrance we can use for your custom order:

### Well Lit Candle Fragrance

This is any of the fragrances we currently offer in any of our collections. We have a wide assortment of fragrances that may be suitable to your needs. A full fragrance list with note profiles can be found towards the end of this document.

### Custom Fragrance (+\$15)

This is if you have a specific fragrance in mind and would like for us to recreate it for you. This is slightly more due to the testing involved with deciding the right fragrance blend/combination to obtain the desired scent. The fee applies to each specific custom fragrance requested, NOT to each candle that uses the fragrance.

Note: There is an option to have multiple fragrances and vessels in your order, however, there is a 10 item minimum per fragrance per vessel and a \$5 "split menu" fee per variant. There is no limit to the number of variants in an order. Please let us know if this is something you are interested in!

## Label

There are two labeling options for your custom order:

1. Your design (included in above pricing)
2. Well Lit Candles design based on your vision (+\$20 flat fee)

For option 1, you must provide a design that you have the rights to. We will not make any changes to the design except for the purposes of fitting it on a label. For option 2, you will be asked to share the details of the vision for your design. Proofs will be provided for approval for both options. We request timely approval so as not to delay the overall process.

## Shipping

The shipping rates are as follows:

Final Weight of Order (Lbs)	Shipping Rate
1-5	\$15
5-10	\$20
10-20	\$35
20-30	\$50
30-40	\$70
40-50	\$90
50+	Price to be determined at a later date

The approximate weights of each product have been provided above. These values will be used to calculate the shipping costs for invoicing.

## LOGISTICS

### Minimum Order Quantity (MOQ)

A minimum of 10 items must be placed for custom candle orders. For 'split menu' orders (different fragrances and/or vessels), there is a 10 item minimum and \$5 fee for each additional variant in the order. There is no limit to the number of variants in an order.

Example: Let's say the order should include two different sizes or two different fragrances. The MOQ is 10 for each bringing the total minimum quantity to 20 and adding a \$5 fee. Let's say the order should include two different sizes that each have two different fragrances. The total minimum quantity is now 40 with a \$15 fee.

Feel free to reach out to us at any time for clarification.

### Lead Time

We ask that we are given at least ten weeks of lead time to put your order together. Any orders needed sooner than the ten weeks will be considered a rush order\*. The ten week window begins once the deposit has been paid. Please adhere to all deadlines given throughout the process to ensure on time delivery of your order.

**Well Lit Candles will not be responsible for delays resulting from missed deadlines on the customer's part.**

\*Rush orders will incur a fee of \$2.50 per item. Rush orders will have a minimum 4 week window that begins once the deposit is paid.

Additionally, we will provide up to four samples for you to test and review, shipping included. This can be in any combination, whether you want all four to be the same fragrance or four different fragrances. Any additional samples will incur a fee of \$5 each plus \$10 for shipping. Samples will be provided only after deposit is paid.

We will not be able to offer samples with rush orders due to time constraints but can include them with final shipment of products.
